---

## Experience

---

### Freelance Web Developer / Front-end Web Development

Current, Los Angeles, CA, USA (Remote)

- Develop websites and projects using HTML, CSS, JavaScript, and React. Implementing responsive design techniques to ensure optimal user experience across desktop and mobile devices.
- Utilize Git for version control and GitHub for project management and issue tracking.
- Troubleshoot and debug code to ensure website functionality and resolve any technical issues.
- Stay up-to-date with emerging web development technologies and trends to continually improve skills and expand capabilities.

### Protec NW / Web Developer

[www.protecnw.com](http://www.protecnw.com)

2016, University Place, WA, USA

- Utilized HTML, CSS, Stylus, MAMP, WordPress, Git, and Bitbucket to create and maintain a dynamic website.
- Translated the website owner's vision into a fully functional, modern, and sleek design using WordPress CMS.
- Received requests for updates and worked on WordPress locally using MAMP with the most recent database and Atom text editor to write code.
- Conducted code reviews with the Senior Developer before deploying code to production.

---
